# HEART & SOUL RENEWAL

*Dear spiritual warrior and fellow traveler,*

Be held with reverence in a deeply nourishing container as you open up to and merge the transformative healing energy of inner and outer sacred lands. Learn to craft your own renewal experience of body, heart, mind, and soul by clarifying, course-correcting, and recommitting to your greatest callings.

As you rediscover and nourish your soul purpose expression, you'll experience the essence of heart wisdom that unites us all. Not only will you be pampered from head to toe with delectable sensual experiences (yes, there will be a hot tub on site too lol), you'll leave with an arsenal of powerful, alchemical tools and guidance to grow and sustain your soul purpose upgrade, your enhanced response-ability, and your refined devotion to your legacy, your intimate circles, and the Greater Good.

Our retreat will take place in Taos, New Mexico, on sacred Tiwa land that's infused with history and indigenous teachings about living in harmony and balance, and with trust in mystery, magic, reciprocity, and being of service to each other, the land, and all who inhabit her.

It is our honor and privilege to create this space for reconnection and for quantum leaping your soul purpose along with our Taos Pueblo friends and teachers, Red Sunrise and Amanda.

Much love,

Loraine and Claudia

*(We started following these signs and stepping stones 5 years ago!)*

*Full Moon Ceremony June 4, 2023*

**with Red Sunrise**  
(included in Sunday's workshop)

According to [Astrology](#) K:

On the June full moon, rebirth and spiritual renewal takes place. Fate provides a chance to start all over again, you just need to believe in yourself. Women will have a unique opportunity to get closer to their dreams. The acute need for change, the desire to breathe deeply – this is what drives the actions of people. With the full moon in Sagittarius in June 2023, you can feel extraordinary cheerfulness, a surge of energy.

The influence of the fire sign and its patron Jupiter is manifested in openness, activity and inexhaustible love of life. A person feels himself to be a creator, changes reality with inspiration. There is no place for pessimism: if something does not suit you, you can start over. On the Sagittarius full moon, positive changes take place, people demonstrate their best qualities. Difficulties do not frighten, on the contrary, they start excitement and stir up the blood. You want to go forward, overcome, conquer – in a word, be the master of your own destiny.

## Meals & Nourishment

Meals and snacks will be plant-strong with vegan and vegetarian options, some animal protein and will include **SOUL** (Seasonal, Organic, Unrefined, Local) foods as much as possible.

**Optional cooking experiences:** All meals will be mindfully crafted by Claudia. You're welcome to help in the kitchen during free time and creative expression periods to gain great insight how she combines flavors. Learn how she carefully chooses and arranges ingredients to maximize nutritional properties and digestion while energetically infusing all meals with deep reverence for Mother Nature and for all involved in the nourishing process.

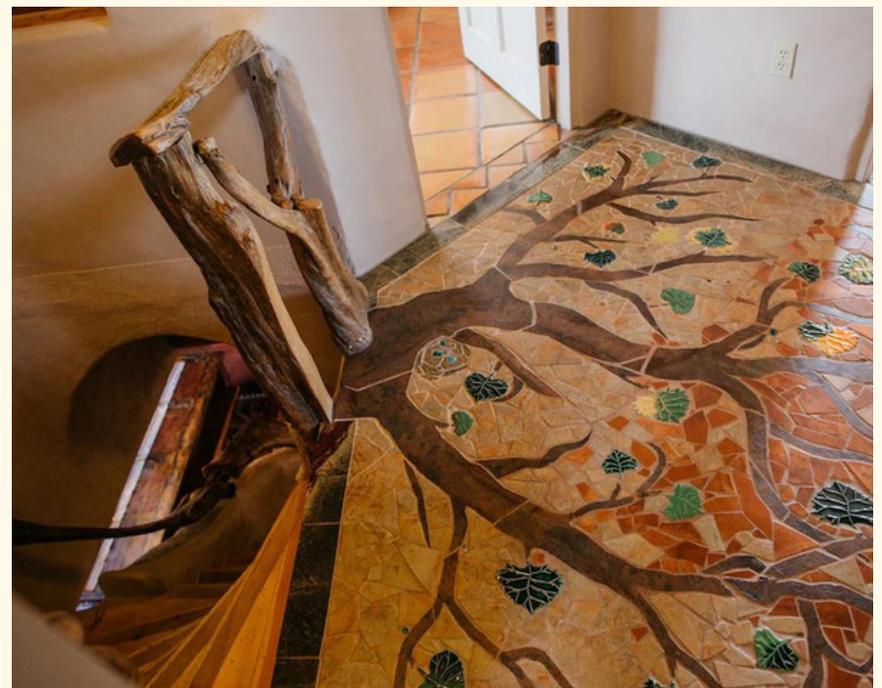

*"Claudia redefines what it means to eat good food. My mindset around eating completely changed after experiencing Claudia's services. I thought I was a 'good eater,' but Claudia takes it to another level. I thoroughly enjoyed learning a new way of eating that elevated my relationship with food. I learned what it means to nourish my body, I learned the importance of using organic fresh ingredients, and I learned how to enjoy food with intentional mindful eating. She puts her heart and soul into her creations and it really shows. My palate was SINGING with every dish she made and her Leche de Gaia ceremony is magical. It's hard to explain how special that ceremony is. The moment I tasted the Leche de Gaia... my taste buds exploded with excitement. It was like my body was saying 'Thank You!'"*

Our COVID-19 requirements based on CDC suggestions:

To create an environment where everyone feels comfortable and is safe, we are requiring a negative test result from an official lab within a 3-day window before arrival, and a second test upon arrival using a home kit. A raincheck for a future retreat will be provided in case of a positive result.

Because of imbalances around sex and gender in many cultures and because of the intimate living spaces that will be shared, this retreat concentrates on serving those who identify as other than male. That said, one of the imbalances that we will be addressing and working on represents an important thread in need of healing so that we can reweave the fabric of our societies to be fully inclusive of all expressions of sex and/or gender.

# HEART & SOUL RENEWAL

Lorraine Van Tuyl, PhD, CHT

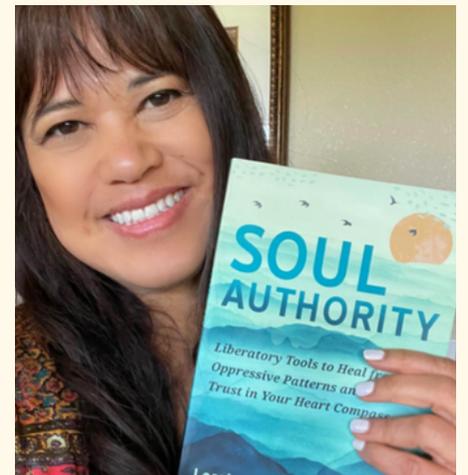

Fear is not our true nature. Love is. Lorraine learned that as a highly sensitive child while playing along the edges of the Amazon rainforest of her native Suriname. She often imagined she was Mowgli, filled with awe and wonder for her nature sanctuary that kept her safe from a world that she often didn't understand.

After a military coup uprooted her family, they moved to the concrete jungles of Miami. She coped with the devastating loss of her safe sanctuary and most trusted lifeline to her true nature during the awkward middle school years by becoming selectively mute and pretending not to speak English.

Decades later, her rigorous studies, certification, and extensive training in clinical psychology, shamanic practices, meditation and mindfulness fundamentals, energy medicine, eco psychology, and Depth Hypnosis quantum leaped her healing. She wrote and shared her story in *Amazon Wisdom Keeper: A Psychologist's Memoir of Spiritual Awakening* in 2017. Since then, she has talked to audiences, big and small, on podcasts and radio shows, at conferences, retreats, and book stores.

Her second book, *Soul Authority: Liberatory Tools to Heal from Oppressive Patterns and Restore Trust in Your Heart Compass* (2022) and her unique Soul Authority™ methods have empowered hundreds of wise souls in psychology, holistic health, academia, the arts, conservation, entrepreneurship, economics, and social justice work.

She has most recently been invited to participate in intimate 20-person think tanks on topics such as mindfulness, racial healing, and community building alongside leading consciousness pioneers and master teachers, such as Ruth King, Jack Kornfield, Thupten Jinpa (primary interpreter of His Holiness the Dalai Lama), and Sharon Salzberg.

*Claudia Castillo Holley, C. RTT<sup>®</sup>, CHT, N.E*

Claudia's vast life experiences started as a highly sensitive, creative and precocious little girl in Venezuela. Born with a vision challenge, she still taught herself how to read and mastered many forms of art and musical instruments. Eager to fit in, she learned early on to disconnect from her true self and magical inner world, and unconsciously lived with silent shame and blame for her uniqueness.

Four+ decades of never ending soul searching through countless careers, homes, relationships, and health challenges inspired her to study everything she could about the power of food and self-healing practices for optimal health and wellbeing.

Soon after immigrating to the US in the early 2000's, she challenged the status quo. While adapting to yet another career, home, language, and culture, she successfully supported her daughter in overcoming serious health challenges using holistic methods. This evolved into a life purpose and deep desire to share her tools with others. Her creative nature and expertise allowed her to combine mindfulness, super foods, colors, flavors, textures and the power of intention to produce delectable meals that fortify the body, mind, heart and spirit.

The pandemic and radical midlife challenges brought her to her knees, with deeper life, health and vision challenges. She took the opportunity to up-level her fierce spirit with Rapid Transformational Therapy and Hypnotherapy. She healed wounded parts of herself and continues to hold loving space for her inner child who now belongs to her, safe and loved in her timeless present moment. This has brought great peace, and sustained happiness, gratitude, playfulness, and freedom to her life and to the healing services she offers through her therapy practice and in-person and virtual retreats.

*Red Sunrise Luhan and Amanda Herrera*

Red Sunrise's rigorous training as a chosen carrier of the old traditional ways started well before his kindergarten years and involved listening to countless stories, practicing kiva duties, reciting prayers, learning songs, and doing arts and crafts.

*"I sing all the time. Morning day night - always happy to sing to the sun and moon, also Mother Earth and Father Sky. My heart and soul is theirs to help my people. My energy is different than any other and so is my love. Can't wait till summer so we show our love and happiness what Mother Earth has for all of us if we believe in Father Sky."*

— Red Sunrise

*"I was reading about the biology of love. How do one hundred trillion cells support one another so they all thrive, driven by Universal love and wisdom? Here we are, the feelers of that. We need to support one another. Form our own soul community so we don't go through this renewal healing rebirthing alone. Red Sunrise is a sunshine. A beacon to humankind: an activator of the Divine Masculine and a reverent protector of the rising Divine Feminine. His heart OMG ... ♥ "*

— Claudia Castillo Holley

Amanda Herrera, Red Sunrise's partner, was similarly born and raised in the pueblo. She learned how to make jewelry, bread, and pottery from her grandmother and Red Sunrise's late mother, Dolly, and enjoys creating and painting her unique and gorgeous pottery pieces.

Now four months later, I still enter my sanctuary and learn from my guides each time I meditate and the old story of abuse is no longer my story. I'm completely free of it (never meditated or worked with guides before taking this 10-week Soul Authority course)... This is still true 4 years later. I'll be forever grateful."*

— Margaret Delph, Warehouse Manager

*"Loraine is an absolutely amazing individual and healer... She is plugged into the world of spirit and energy in a way that very few people are... a true wise woman and anyone working with her will certainly be transformed by her presence alone.
